- Standby time: 80 hr
- Talk time: 5 hr

Sound

- Acoustic system: Closed
- Diaphragm: PET
- Frequency response: 20 - 20,000 Hz
- Magnet type: NdFeB

Highlights

Ready to go

With their portable charging case, these headphones won't let you down. You get up to five hours play time on a single charge. If you head out with a fully charged case, you get an additional 15 hours over multiple charges. Just pop the headphones back in the case each time they need charging. A full charge takes 1.5 hours.

Comfortable and secure

You can rock your sounds in real comfort thanks to the snug-fitting, lightweight design. The soft, rubberised wing tips fit securely under the fold of your outer ear. Interchangeable rubber ear-tip covers let you find the perfect in-ear fit — creating a tight seal so you won't miss a beat.

Always great sound

The 6 mm neodymium acoustic drivers give you great sound and punchy bass. The oval-shaped acoustic tube maximises passive noise isolation. Mono mode gives you the option to leave one ear free for when you want to stay aware of the world around you.

Multi-function button.

Easily control music and calls via the multi-function button. Don't like the current track? Skip it with a long press. Want to reject a call and keep listening? A simple button-press takes care of that.

Noise and echo cancellation

The built-in mic with noise and echo cancellation keeps sound clear when you take a call.

Hey Siri! Hey Google!

Wake your phone's voice assistant with a double button-press. Ask Siri or Google Assistant to play some music, call or send messages to friends, check the weather and more.

Smart Bluetooth pairing

Your headphones are ready to pair the instant you take them out of the case. Once they're paired, the headphones remember the last device they were paired with.
